Eggman for Congress
"Shut Down the Games" (Demo)
TV :30 - Philip De Lancie

Annc: Who was Congressman Jeff Denham really representing when he voted twice against ending the government shutdown, which cost our economy $24 billion?

Was it the Tea Party, which Denham votes with 79% of the time?

Or was it House Speaker Boehner, who fundraises for Denham's campaigns, and who Denham votes with 86 percent of the time?

Whoever it was, it wasn't our Central Valley communities.

What we need is someone who'll shut down the political games and work with others to get things done.

What we need is Michael Eggman in Congress.
