

Eggman for Congress
"Who Represents Us?" (Demo)
 TV :30 - Philip De Lancie

Annc: Remember that Arizona immigration law that made police detain citizens who look like immigrants?

Who was Congressman Jeff Denham representing when he said he "fully supported" that law? Not our Central Valley communities.

We believe in working together, not pulling people apart.

We believe that businesses from farmers to high-tech should be able to find the workers they need to keep growing, and that we're strongest when we all have a shot at earning the American dream.

That's what Michael Eggman believes too. And that's why it's time for Michael Eggman to represent us in Congress.
